Start Date: August 2017

Hours: 40 hours per week

Training Duration: 6 months

Compensation: \$1,000 per month

Housing: Not provided

Number of Positions Offered: 1

Host Company Description:

The Company is a manufacturer located close to Los Angeles. It produces and serves to their customer high quality products such as batteries, charges, power adapters, etc. The company is a great opportunity to gain experience in global market and increase know-how in computer industry. Intern/trainee will be responsible for testing a company website, record keeping and will provide maintenance of website by using various applications. The company's clients are some of the world's most successful companies: wireless and wireline equipment and communications service providers: enterprise IT, consumer electronics, and semiconductor companies; and broadcasters, publishers, platform operators, online and entertainment companies.

Position Description:

The internship is focused on gaining project management skills, participating in sales and marketing, managing digital media such as social media, web design and video production, as well as construction oriented program management on project basis. The intern may also participate in a market and economic development research to target foreign companies and government entities, participate in foreign government contract review and aid in preparing bids.

Applicant Qualifications:

- To apply for the **Internship** program you must be a full time student enrolled in **Business Management, Marketing, Communications or International Relations** degree program, or have graduated less than 12 months ago from the internship begin date.
- **Excellent English verbal and written communication skills required**
- Must be detail oriented, anxious to multi task, collaborative in team environments, be willing to develop new ideas and see projects to their conclusion.
- Must have above average computer, internet, and email skills with 3-4 years experience with Microsoft Excel, MS Outlook (email, scheduling, collaborative task management)

How to Apply:
